

Part time job at wallpaper studio Feathr

Feathr.com is a wallpaper design studio and an e-commerce business selling internationally. Our studio is in Fiskars. We are looking for some extra help for the coming months.

We're on the hunt for someone who can help with a few different tasks: mostly design work and preparing print files/artwork, along with some admin tasks (like sending samples). Knowledge and skills in Adobe tools like Photoshop and Illustrator are an absolute must.

This would be a part time project role (2-3 days a week) lasting 3 months (possibly up to 6 months) - we work in English. We are looking for someone who can start immediately.

More information and applications (cv + examples of design work): Tom Puukko, 050 571 2774, tom@feathr.com
